

Methodology to teach and learn the best practices to be a

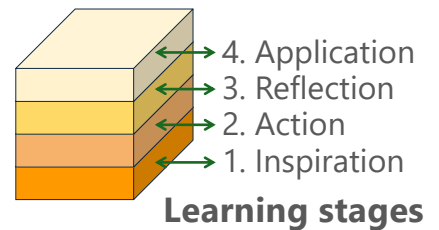

Responsible Leader

Innopeda® Innopeda®, is based on collaborative network-based learning to support innovations. The aim is to create a better life for individuals and sustainable future for educational institutions and for other organisations through education.

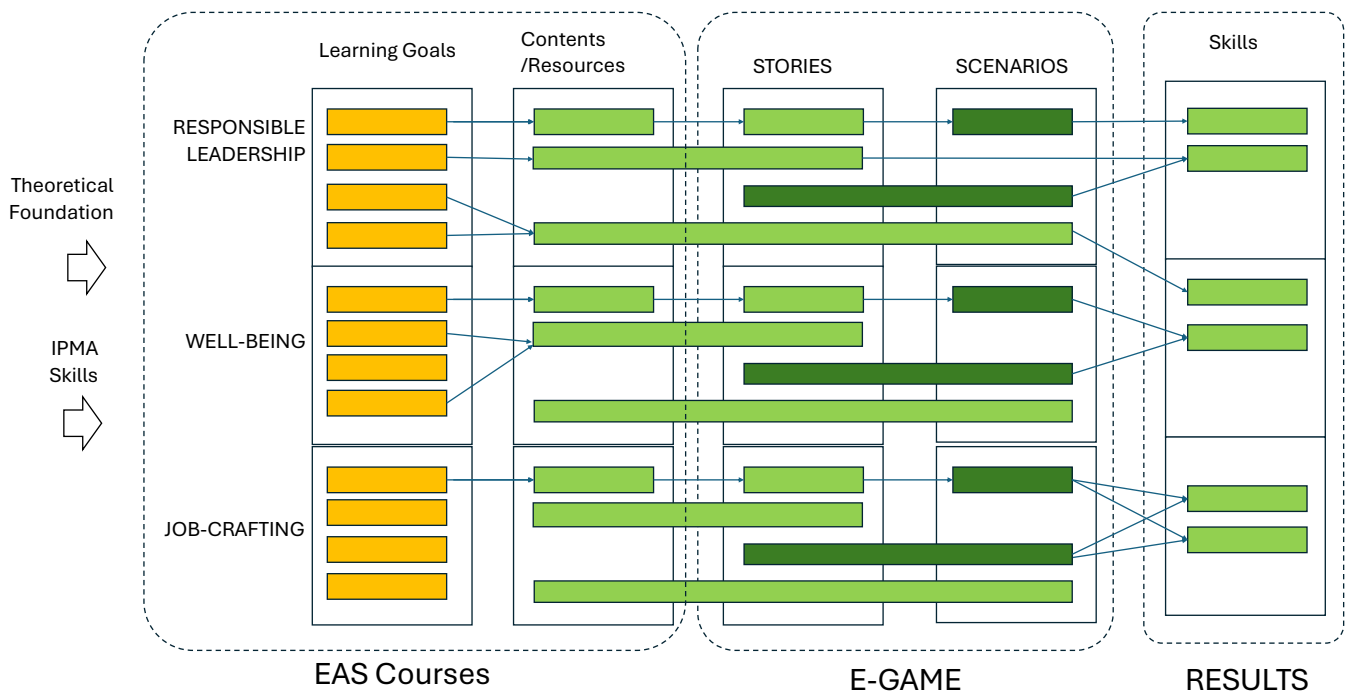

Skill Box (from the EU CoSki21 project) is a compact learning package that targets one specific people skill and can be combined flexibly within a course.

Skill box

The methodology in the context of the project

RESPRO Best Practises

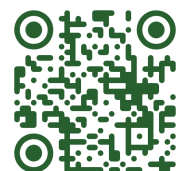

The best practises determine the learning outcomes, that will be transformed in the contents. These contents are learning by means stories that occurs in scenarios in which the skills are necessary

Funded by the European Union

Responsible leadership – Developing people skills in project management education in European HEI's (RESPRO) 2022-1-ES01-KA220-HED-000085940
